Insured's Name _____ Insured's Date of Birth _____

Insured's Social Security # _____ Insured's ID # _____

Insurance Company _____ Group # _____

Employer _____ Occupation _____

EMERGENCY CONTACT INFORMATION

Emergency Contact Name _____ Relationship to Patient _____

Address _____

Cell Phone _____ Email _____

Orthodontics is a service that provides an improvement in the appearance of the teeth (esthetics), in the general function of the teeth, and in general dental health. Teeth, gums, and jaws are an intricate part of the body and may or may not respond well to treatment. If good oral hygiene is not practiced, problems such as tooth decay, enlarged and inflamed gums, and permanent marks on the teeth can result. Different amounts of risk exist in any medical or dental procedure, for example in orthodontics symptoms such as joint discomfort and root shortening are observed in a small percentage of cases. Whether or not there is any orthodontic treatment, teeth still may change and shift throughout our lifetime, and there can be some movement of teeth and some changes after treatment is over.

I have read and understand the above paragraph. I also understand that my diagnostic records may be used for educational and promotional purposes. I have read and understand the questions on this form and have accurately and truthfully answered all the above questions. I will not hold the doctor or any other staff member responsible for any errors or omissions that I have made in completing this form. I agree to inform this office of any changes in the patient's medical or dental history. In addition, I authorize the doctor to perform a complete orthodontic exam and take any diagnostic records (photos/x-rays) if necessary.
